What you need to know

Some conditions may limit your coverage

To avoid unpleasant surprises, read this policy carefully. For example, here are 3 conditions that may limit your coverage:

1. You aren't covered for a medical condition that is not stable.
2. You're only covered for trips up to the number of days you've selected—see your Confirmation of Insurance for the exact number of days you're covered for. Your insurance must cover you for the whole time you'll be away for each trip you take. If not, we may deny your claim.

All trips start the day you leave your home province or territory and end the day you come back. That means that the day you leave and the day you come home count as 2 full days away, no matter what time of the day you leave or come home.

Examples:

- You leave Friday night and come home Thursday morning = 7-day trip
- You leave Friday morning and come home Thursday night = 7-day trip

3. In case of an emergency while you're travelling, you must call our Assistance Service before going to a hospital or clinic. Otherwise, you may have to pay a portion of the expenses yourself.

Your travel insurance contract

These documents make up your contract:

- This Multi-Trip Annual Insurance Policy
- The personalized Confirmation of Insurance you received with this policy—this document indicates the coverages and insurance amounts that apply to each insured person, and the number of days covered per trip
- Any updates to the Confirmation of Insurance you may have received
- Any medical questionnaire you or any of the other insured persons had to complete
- Any document, like a rider, that modifies your contract

Words in italics

The words *accident*, *living expenses*, *travel service supplier* and *family member* are in italics in this policy because they have specific meanings in the context of insurance. See section 16 for the definitions.

1. About Multi-Trip Annual Insurance

In this section, "you" refers to the person buying the insurance contract. Everywhere else in the document, "you" refers to the insured person.

1.1 Who can buy this insurance

You can buy Travel Insurance if you meet the following 2 criteria:

1. Minimum age → Be at least 18 years old
2. Residency status → Be legally authorized to reside in Canada and live there at least 6 months a year

1.2 Who you can buy travel insurance for

You can buy the insurance for anyone (including yourself) who meets the following 3 criteria:

1. Minimum age → Be at least 15 days old*
2. Maximum age → Be under age 81
3. Residency status → Be legally authorized to reside in Canada and live there at least 6 months a year

* A child born during a trip is automatically insured under Emergency Health Care if the following 2 conditions are met:

- The mother is insured under this coverage, and
- Expenses for delivery aren't excluded (see section 2.4 Exclusions and limitations)

1.3 Conditions for a trip to be insured

For a trip to be insured, you need to buy the insurance before your planned departure date and it must cover you for the whole time you'll be away. All trips start the day you leave your home province or territory and end the day you come back. The number of days you've selected is indicated in your Confirmation of Insurance.

1.4 Coverages

There are 5 coverages—you can choose one or more depending on the needs of each person you want to insure:

-  Emergency Health Care
-  Trip Cancellation or Modification
-  Baggage
-  Accident
-  Emergency Return Trip

If we agree to insure you, you'll receive a Confirmation of Insurance that contains information about each insured person's coverage.

For Trip Cancellation or Modification and Baggage, you also need to select insurance amounts.

1.5 Medical questionnaire

You may have to answer health questions if you choose Emergency Health Care, or Trip Cancellation or Modification, depending on how old you are and the number of days you've selected.

You may also have to complete a medical questionnaire at your annual contract renewal. For more details, see sections 15.1 Contract renewal and 15.2 Quattrra Advantage.

You need to provide accurate information

The information you provide is very important—we use it to decide whether or not we're going to insure you. If you provide incorrect or incomplete information, or make a false statement, we may cancel your coverage or deny your claim.

That said, after the first 2 years of coverage, we can no longer cancel your coverage or deny your claim based on the information and statements you provided, except in case of fraud.

2. Emergency Health Care

2.1 Description

This coverage covers you during your trips outside your home province or territory if:

- You suddenly and unexpectedly become ill or have an *accident*
- Your illness or your injuries are certified by a doctor authorized to practise medicine where the medical care is provided, and
- You require emergency medical care or services

What you need to know

1. Your insurance must cover you for the whole time you'll be away for each trip you take. If not, you won't be covered at all for your trip. All trips start the day you leave your home province or territory and end the day you come back. That means that the day you leave and the day you come home count as 2 full days away.
2. You must be covered under the health and hospitalization insurance plans of your home province or territory for the whole time you'll be away for each trip you take (it's up to you to make sure that you're insured under the government plans).
3. You have to call our Assistance Service before going to a hospital or a medical clinic and follow their instructions. Otherwise, you may have to pay a portion of the expenses yourself.
4. We aren't responsible for the availability or quality of the care and services received.

2.2 Maximums

- a) Expenses to bring you back to your home or to a hospital recognized as such under legislation in your home province or territory to receive appropriate care as soon as your health permits it.
- b) Round-trip economy transportation and the usual fees and expenses of an attendant if the licensed doctor treating you says a qualified medical attendant needs to accompany you.
- c) The additional cost of an economy-class plane ticket to bring a single travel companion back to their home. This travel companion must:
 - Share travel arrangements with you, and
 - Have emergency healthcare coverage through Desjardins Insurance for their trip.
- d) Expenses to bring a cat or dog accompanying you on your trip back to your home, if no other person can do this. Maximum of \$500.
- e) The excess baggage charges if someone has to bring your luggage back to your home, or the cost of bringing your luggage back if nobody else can do this. Maximum of \$300.

These repatriation expenses must be approved and arranged by the Assistance Service.

If you're hospitalized for more than 24 hours or you have to be brought back to Canada for medical reasons:

- a) The additional cost of economy-class plane tickets to bring back to their home children in your care during your trip, if no other person can do this.
- b) The cost of an escort if the common carrier requires that the children be accompanied.

5. Visit from a family member

The following expenses are eligible if:

- You have to be hospitalized for at least 3 nights
- You aren't already accompanied by a *family member* age 18 or older, and
- The licensed doctor treating you deems it necessary

All these expenses must be approved and arranged by the Assistance Service.

If you can't prove that you were unable to contact the Assistance Service, you'll have to pay 30% of the eligible expenses, up to a maximum of \$3,000.

2. Exclusion for medical conditions that were not stable

Since this coverage only covers sudden and unforeseen events, you may not be covered for an injury or a medical condition that is not stable in the 90- or 182-day period before you leave on your trip, as follows:

- If you're under 55 → 90 days
- If you're 55 or older → 182 days

To find out if your health is not stable, read section 8 of this policy.

This exclusion starts over again for each new trip you take. It also applies even if you told us about the injury or medical condition in the medical questionnaire, or if a doctor said you could travel.

3. Other exclusions for medical reasons

- a) If a doctor advised you not to travel
- b) If you're ill and your life expectancy is less than 12 months because of this illness

5. Exclusion that applies when the Canadian government has issued a travel advisory

You aren't covered if your destination or type of trip (for example, a cruise) is subject to a travel advisory issued by the Canadian government to avoid all travel before you left on your trip.

If this advisory is issued after you left on your trip, you aren't covered if you didn't return to your home province or territory within 14 days of when the advisory was issued.

If you can't leave the country or region in question within this 14-day period, please contact the Assistance Service.

6. Exclusion in the case where your trip exceeds your coverage period

Your insurance must cover you for the whole time you'll be away for each trip you take. If not, you won't be covered at all for your trip. Your trip starts on the day you leave your home province or territory and ends on the day you return to your home province or territory. The number of days covered per trip is indicated in your Confirmation of Insurance.

2.5 Documents needed to make a claim

This coverage covers you if you have to cancel or modify a trip inside or outside your home province or territory.

What you need to know

1. There are 18 recognized causes of trip cancellation or modification (see section 3.3). If one of these causes occurs, we'll reimburse the eligible expenses, the amount of which varies depending on your situation (see section 3.4).
2. The cause must be serious enough to prevent you from travelling or require you to return earlier or later than planned.
3. You aren't covered if, when you bought this coverage, made an initial payment (partial or total) for your trip or incurred the expenses, you may have been reasonably aware that one of the 18 recognized causes would occur.

3.2 Maximums

- *Living expenses*: \$200 per day, up to a maximum of \$2,000

2. Cancellation or modification of your travel companion's trip

The person who shares travel arrangements with you has to cancel their trip, or return earlier or later than planned, because of one of the 18 recognized causes outlined in this section.

- The registered common carrier in which you're travelling is delayed due to bad weather, a natural disaster or mechanical problems, or
- A traffic accident or emergency road closure by police (you'll have to provide a police report) prevents you from getting to your departure point on time.

Travel advisory issued before your planned departure date
<p>Avoid all non-essential travel or all travel</p> <p>You need to cancel your trip within 14 days of your planned departure date, as long as the travel advisory is still in effect. That means you have to wait until 14 days before your planned departure date to cancel your trip. If you need to make a deposit before this 14-day period, call the Assistance Service.</p>
Travel advisory issued after you've arrived in your destination country or region
<p>Avoid all non-essential travel</p> <p>You can modify your trip to return to your home province or territory. You'll remain covered if you choose to stay where you are but only for the number of days covered per trip.</p> <p>Avoid all travel</p> <p>You must return to your home province or territory within 14 days of when the advisory is issued. After this 14-day period, you'll no longer be covered.</p>

Quarantining must prevent you from leaving on your planned departure date or returning to Canada as planned. We don't reimburse any expenses for quarantining that's required when you return to Canada.

17. Hijacked plane

The plane you're travelling in is hijacked. The aircraft must be licensed and operated by a scheduled or charter airline with a valid licence. It can't be a military aircraft.

- Serve as a police officer, firefighter or member of the military in active duty or as a reservist, or

A staffing shortage isn't considered to be a crisis or an emergency situation.

3.4 Eligible expenses based on the 5 covered situations

To be entitled to a reimbursement, you must:

- Find yourself in one of the 5 situations described below
- For transportation tickets (plane, boat, train, bus): Have bought them from a carrier with a valid licence

Situation 1. You have to cancel your whole trip or cruise because of one of the 18 recognized causes.

Eligible expenses:

The non-refundable fees you paid in advance to a *travel service supplier* on the date the cause for cancellation occurs.

Cancel your trip as soon as you can!

It's in your best interest to do this because we only reimburse the expenses that are non-refundable on the date the cause of cancellation occurs. If you wait to cancel your trip, your *travel service supplier* may charge a penalty that we won't reimburse.

If the Canadian government has issued a travel advisory to avoid all non-essential travel or all travel for your trip, the following conditions apply:

- Advisory issued 14 days or less before you're supposed to be leaving: You must cancel your trip as soon as the advisory is issued, because we won't reimburse any penalties the *travel service supplier* may charge after the date the advisory is issued.
- Advisory issued more than 14 days before you're supposed to be leaving: You need to wait until 14 days before your departure date to cancel your trip, if the advisory is still in effect at the time. If you cancel your trip less than 14 days before your planned departure date, your *travel service supplier* may charge a penalty that we won't reimburse.

Situation 2. Your travel companion has to cancel or modify their trip because of one of the 18 recognized causes and you still decide to go.

Eligible expenses:

The additional expenses incurred due to the absence of the person who shares travel arrangements with you (for example, additional charge for hotel room).

Situation 3. You miss your departure or it's delayed because of one of the 18 recognized causes.**Eligible expenses:**

- a) The *living expenses* you incur.
- b) The additional cost for changing the date, time or departure point of the ticket that was supposed to get you to the planned destination. The new ticket must be a one-way economy ticket and be used to get you to the same planned destination by the most direct route.
- c) The unused and non-refundable portion of the costs you paid in advance to a *travel service supplier* for land arrangements.

Situation 4. You have to return earlier or later than planned because of one of the 18 recognized causes.**Eligible expenses:**

- a) The *living expenses* you incur.
- b) The additional cost for changing the date, time or departure point of the ticket that was supposed to get you to your home province or territory. The new ticket must be a one-way economy ticket and be used to get you to your home province or territory by the most direct route.

If an illness or *accident* delays your return by more than 7 days after the planned return date, we'll only reimburse this additional cost if the 3 following conditions are met:

- Your illness or your injuries must be certified by a doctor authorized to practise medicine where the medical care was provided
 - You or your travel companion (the person who shares travel arrangements with you) must have been hospitalized for at least 18 consecutive hours, and
 - Proof of hospitalization must be provided.
- c) The unused and non-refundable portion of the costs you paid in advance to a *travel service supplier* for land arrangements.
 - d) Any unused transportation tickets other than the one you were supposed to use to return to your home province or territory.

Situation 5. You miss part of your trip because:

- **You or your travel companion (the person who shares travel arrangements with you) are hospitalized for at least 3 consecutive nights during the trip, or**
- **Your travel companion dies during the trip.**

Eligible expenses:

- a) The *living expenses* you incur.
- b) The additional cost for changing the date, time or destination of a ticket that was supposed to be used during your trip. The new ticket must be a one-way economy ticket and be used to get you back to the planned destination for your trip by the most direct route.
- c) The unused and non-refundable portion of the costs you paid in advance to a *travel service supplier* for land arrangements.
- d) Unused transportation tickets other than the one that was changed and for which we're already reimbursing the additional costs.

This exclusion starts over again for each new trip you take. It also applies even if you told us about the injury or medical condition in the medical questionnaire or if a doctor said you could travel.

- You haven't made any claims, and
- For Trip Cancellation or Modification, you bought or renewed this coverage more than 10 days before the planned departure date.

You aren't entitled to a premium refund if you cancel the purchase of your insurance contract after the beginning of the coverage period indicated in your Confirmation of Insurance.

10.3 To cancel a modification to your insurance

If you want to cancel a modification that you've requested for a trip, you have 2 options:

- Call us at **1-855-368-6924**
- Fill out the Notice of Rescission of an Insurance Contract you received with this policy and send it to us by registered mail.

Are you entitled to a premium refund if you cancel a modification to your insurance?

Yes, in some situations and depending on the conditions described below.

Situation 1. You never left on your trip.

For Emergency Health Care, Baggage, Accident and Emergency Return Trip:

You're eligible for a premium refund if:

- You ask us to cancel the modification before the planned departure date, and
- You haven't made any claims.

For Trip Cancellation or Modification:

You're eligible for a premium refund if all the following conditions are met:

- You ask us to cancel the modification within 10 days of buying it
- You ask us to cancel the modification before the planned departure date
- You bought the modification more than 10 days before the planned departure date, and
- You haven't made any claims.

Situation 2. You returned earlier than planned.

For Emergency Health Care, Baggage and Accident:

You're eligible for a premium refund for the days you paid for but were not needed if you haven't made any claims. We start counting the number of days as of the date we receive your request.

If you've paid a family premium, all insured persons must also have returned early.

For Trip Cancellation or Modification and Emergency Return Trip:

We won't refund any amount.

Cancellation fees

If you're entitled to a premium refund, we have the right to apply cancellation fees only if you cancel the modification more than 10 days after buying it.

11. Automatic extension of your coverages at no cost

We automatically extend your coverages at no cost if you find yourself in any of the 3 situations described below:

Situation 1. Your return is delayed because of the vehicle you're travelling in.

Your return is delayed because:

- The registered common carrier vehicle in which you're travelling as a paying passenger is delayed, or
- The vehicle in which you're travelling is involved in a traffic accident or breaks down due to mechanical problems.

Extension period for each coverage you have:

- Emergency Health Care, Baggage, Accident while travelling and Emergency Return Trip: → Up to 72 hours following the date they were scheduled to end
- Trip Cancellation or Modification and Accident while aboard a plane: → Until you return to your home province or territory

Situation 2. Your return is delayed because of an illness or injury.

Your return is delayed because you or a travel companion (a person who shares travel arrangements with you) had an *accident* or became ill and:

- You're entitled to a reimbursement of your *living expenses* for this reason, or
- On the planned return date, you or your travel companion have been hospitalized for at least 18 consecutive hours.

A doctor authorized to practise medicine where the medical care is provided must certify that you aren't well enough to return to your home province or territory.

Extension period for each coverage you have:

- Emergency Health Care, Baggage, Accident while travelling and Emergency Return Trip: → Up to 72 hours after the later of the following dates:
 - The date the *living expenses* period ends (maximum 10 days)
 - The date the hospitalization period ends
- Trip Cancellation or Modification and Accident while aboard a plane: → Until you return to your home province or territory

Situation 3. Your luggage is delayed.

If you've checked your luggage with a registered common carrier, we'll automatically extend Baggage (if you have that coverage) at no cost until the common carrier returns your luggage to you or declares it lost.

12. Claims

12.1 Make a claim in 2 easy steps

1. Get the required claim form by phone or on our website.

For most claims, you need to fill out a form. You can ask us to send it to you or get it on our website.

- Canada and the United States (toll-free): **1-855-368-6924**
- Anywhere in the world (call collect): **418-647-5140**
- www.desjardinstravelinsurance.ca

2. Send us the required form and proof.

You must send us your claim within 90 days of the date of the event entitling you to a payment. In some cases, we may ask you to:

- Provide certain information, documents, proof and authorizations we need to assess your claim—you must send us this proof within 90 days of when we ask you for it
- Be examined by a health professional of our choosing (at our expense)

12.2 Our response to your claim

Within 60 days of receiving all the required documents:

- We'll make a payment, if we approve your claim
- We'll send you a letter explaining the reasons for our decision, if we deny your claim or only pay a portion of the amount claimed

12.3 Payment of your claim

Person, or care or service provider to whom we'll make the payment

We'll pay any amount payable to the contract holder (the person who bought the contract), or to the care or service provider if the charges haven't been paid. However, for Accident, we'll pay any amount payable as follows:

- For a death:
 - To the beneficiary, if they're alive, or
 - To the contract holder, if they're alive, or
 - To the contract holder's legal heirs
- For a loss of use:
 - To the contract holder

To name a beneficiary, you (the contract holder) must use the form that we provide. The beneficiary will then be valid for the duration of your contract. You may name more than one person and change a beneficiary at any time by advising us in writing. We don't accept any responsibility regarding your choice of beneficiary.

For us to be able to review your claim:

- We must have received the authorization we need to obtain the personal information required.
- You must not have asked for a premium refund.
- You must provide us with correct and complete information (any omission or false statement you make might void your claim).

Payment method

We'll pay all amounts by direct deposit (you need to provide a void cheque) or by cheque.

Currency

All amounts indicated in this contract are in Canadian dollars. If we have to pay an amount in another currency, we'll calculate the amount payable using the exchange rate in effect on the payment date.

Division of expense reimbursements

In accordance with insurance rules, a person can never be reimbursed for more than the expenses they paid, even if they're covered under more than one insurance contract or plan.

If you make a claim for expenses that are also covered under other insurance (private or public) or by your credit card issuer, Desjardins Insurance is the last payer. That means we'll only reimburse the portion of expenses that aren't reimbursable under the other insurance. However, if the other insurance also states that it's the last payer or if it includes a coordination of benefits clause, the reimbursement will be divided between it and your Multi-Trip Annual Insurance contract, based on the amounts that should have been paid by each.

Assignment of your right of recourse in the event of a claim (right of subrogation)

When you make a claim for damage caused by another person, you assign us your right to sue this person and any other right that you may have against them. We'll exercise this recourse on your behalf and at our expense, up to an amount equal to what we paid you for the damage in question.

13. If you're not satisfied

13.1 If you don't agree with our decision (appeal process)

If we don't approve a claim or only pay a portion of the amount claimed, you can submit additional information and ask us to review your claim.

Please note that if you want to appeal our decision in court, you must do so within the time limit provided for by law. The time limit varies depending on where you live: In Ontario, it's 2 years and in Quebec, it's 3 years. To find out the time limit, please refer to the applicable legislation in your home province or territory.

For more information about your rights, contact the regulatory agency in your home province or territory, or your legal advisor.

14. Your personal information

14.1 Protecting your privacy

We're committed to protecting your privacy. We keep your personal information on file so you can benefit from our financial services (insurance, annuities, credit, etc.). However, this information will only be accessed by employees who need to do so in the course of their work.

14.2 Reviewing your file

Lévis (Québec) G6V 6R2

14.3 We may transfer some of your personal information to service providers outside of Canada

Like all insurers who offer travel insurance, we rely on service providers located outside of Canada to do certain things for us. As a result, we may need to transfer some of your personal information to another country.

For information about our policies and practices regarding the transfer of personal information outside of Canada, visit the Desjardins Insurance website at www.desjardinslifeinsurance.com or write to the Desjardins Insurance Privacy Officer at the above address.

15. Other important information

This travel insurance is individual insurance because it's an agreement between you (the contract holder) and us (Desjardins Insurance).

15.1 Contract renewal

Your Multi-Trip Annual Insurance contract will be renewed each year. We'll advise you in writing at least 30 days before each renewal.

If you don't want to renew your contract, you need to let us know before the new coverage period indicated in your Confirmation of Insurance starts.

Insured persons age 61 or older:

- If an insured person is aged 61 to 80 on the renewal date: They may have to complete a medical questionnaire depending on their age and the number of days selected. We'll renew their insurance if we deem them to be in good health. If so, their answers will be valid for 4 years (exception: see section 15.2 Quattrra Advantage).
- If an insured person is aged 81 or older on the renewal date: They can no longer be covered under the Multi-Trip Annual Insurance contract. They can, however, apply for insurance for one trip at a time.

15.2 Quattrra Advantage

With Quattrra Advantage, insureds aged 61 to 80 who choose Emergency Health Care or Trip Cancellation or Modification and have to complete a medical questionnaire don't have to complete the questionnaire each year. Their answers to this questionnaire are valid for 4 years, except in the case of the exceptions indicated below.

During this 4-year period, the premium for these insured persons won't increase due to changes in their health (but might increase due to other factors).

Exceptions:

- An insured person aged 61 or older who wants to extend or increase their coverage for a trip may have to complete the medical questionnaire again.
- An insured person who is age 81 at time of renewal can no longer be covered under the Multi-Trip Annual Insurance contract, even if they completed the medical questionnaire less than 4 years ago. They can, however, apply for insurance for one trip, but must answer the medical questionnaire again.
- When 2 or more insured persons were required to complete the medical questionnaire at different times, they must all complete this questionnaire 4 years after the first insured person completed it. This way all insured persons can complete subsequent questionnaires at the same renewal, every 4 years.

15.3 We can make changes to your contract

If we do, the changes will apply as of the next renewal and we'll let you know at least 30 days ahead of time.

15.4 We can cancel your contract

We can cancel your contract in any of the following situations:

- If you make a false statement, whether fraudulent or not
- If you fail or refuse to provide us with information on any of the people insured under your contract
- If you don't authorize us to collect the information needed to determine if we can insure someone or to process a claim from you
- In the case of non-payment of your premium; if this happens, we'll send you a notice to inform you that we'll be cancelling your contract if you fail to pay the required premium within 30 days

15.5 We can end someone's coverage

We can end a given coverage for an insured person for a trip that's underway if they refuse the treatment prescribed by the doctor treating them or the Assistance Service, or if they refuse to follow any of the following instructions from the Assistance Service:

- Change hospitals or clinics
- Undergo a diagnostic examination
- Return to their home province or territory
